COMPREHENSION PASSAGE

Read the given passage and answer the following questions.

A group of men from Kadambawa were travelling together to Puttalam. They had started from their village at dawn, hoping to reach their destination before nightfall. But the journey was long and when darkness fell, they were still a considerable distance away from Puttalam. So, they stopped at a resting place and after having cooked and eaten, they retired for the night.

One of the men had a dream. He dreamt that he was lost in a thick, dark jungle. The branches of the trees spread like umbrellas, shutting out all light. As he groped for his way, a big tusked elephant appeared before him. It advanced towards him with a slow, heavy tread. Nearer and nearer it came, moving its trunk and flapping its big ears. The man was seized with fright. He screamed.
